PROPOSED PROJECT ON SR 127**BY US CORPS OF ENGINEERS****May 26, 1993**

The following is an understanding of the scope of the proposed project:

- o The U. S. Army is in the process of expanding it's facility at Fort Irwin. The Army is currently working with BLM on this project.
- o This expansion will include the crossing of State Route 127 at six location between I-15 and the Salt Springs Hills.
- o The crossings need to accommodate military wheel vehicles and tanks.
- o Preliminary discussions have indicated that highway should go over the proposed crossings.
- o The three "special events" areas are to be incorporated into the 6 proposed crossing locations. These existing graveled areas are being presently used for motor cycle races etc.
- o District 9 is currently maintaining a portion of this route; the District Engineer, Lew Woods, is aware of the Army expansion and has expressed the desire that District 8 be the Caltrans contact point on this proposed project. (DIST 9 = 14.4 mi / DIST 8 = 27 miles)
- o Informal discussion have taken place todate; the personnel involved are:

George Plass - Structures
Neil Prescott - Permits
Lewis Trout - Corp of Engineers
Bob Harvey - Transportation Planning

- o The Army has been trying to setup a coordination meeting to establish a working relationship with Caltrans in order to meet their a mid June time table.

*under-
6 crossings
1 million
all in Dist 8*
